# Facilities

The City of Concord Parks & Recreation is an active participant in the Carolina Thread Trail project. The Thread is a 15-county regional network of trails and greenways designed for the community to enjoy fitness and recreation through walking, biking, commuting and just relaxing. It will create a permanent legacy of land

conservation for more than two million people by linking communities and attractions across North and South Carolina.

Additionally, the Thread will protect natural environments and conserve fragile lands and habitats, while improving water and air quality. The trail corridors provide necessary links for wildlife and protect many plant and animal species. Concord's McEachern Greenway and the Downtown Connector Greenway are Carolina Thread Trail designated, linking cities of Kannapolis and Mt. Pleasant via Concord.
